

Project Design Phase-II

Data Flow Diagram & User Stories

Project: ComplaintEase – Advanced Complaint Management Platform

DFD Level-0

The user submits complaints to the ComplaintEase system. The system stores complaint data in MongoDB and provides complaint status, analytics and resolution updates to administrators.

User Stories

User Type	Epic	Story No	User Story	Acceptance Criteria	Priority	Release
User	Registration	USN-1	Register account	Account created	High	Sprint-1
User	Login	USN-2	Login securely	Dashboard access	High	Sprint-1
